## 406 - County Road Administration Board

#### A001 Administration

Statewide Result Area: Improve statewide mobility of people, goods, and services

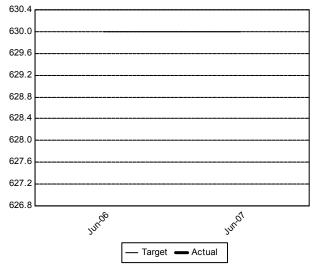

Statewide Strategy: Improve mobility system quality and service

#### **Expected Results**

The result of regulation, research, and oversight has been, and should continue to be, a centralized location of data from thirty-nine counties; an achieved economy of scale realized across thirty-nine road departments; accountability among the counties and from them to the Legislature and the public; credibility of reported data through centralized reporting; and effective, efficient, and professional administration of county road resources.

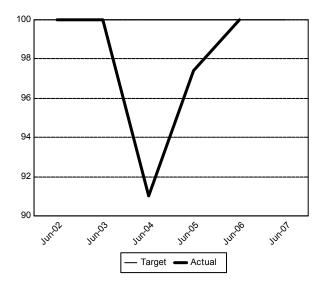

Number of person-days of training attended by county personnel at CRAB provided sessions on County Engineer Duties, Engineering Design Systems (Eagle Point), and Transportation Management Systems (Mobility).

Biennium	Period	Target	Actual	Variance	
2005-07	8th Qtr	630			
	4th Qtr	630	627	(3)	

Percent of counties who have received Certificates
of Good Practice upon initial review of documents

of Good Fractice upon initial review of documents				
Biennium	Period	Target	Actual	Variance
2005-07	8th Qtr	100%		
	4th Qtr	100%	100%	0%
2003-05	8th Qtr	100%	97.4%	(2.6)%
	4th Qtr	100%	91%	(9)%

Activity Version: 2E - Agency recast for 06 supplemental

As of 8/1/2006

## A002 Rural Arterial Program

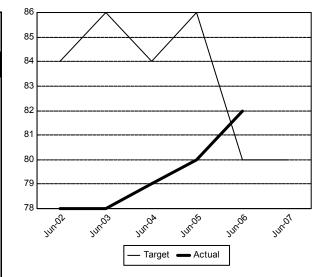

Statewide Result Area: Improve statewide mobility of people, goods, and services

Statewide Strategy: Improve mobility system quality and service

#### **Expected Results**

The Rural Arterial Program successfully targets freight and safety issues on a regional basis. Competition within regions should ensure that only priority projects are constructed. CRAB staff remain in close communication with each county to make sure the program continues to be both responsive to individual counties' needs and effective in dealing with county freight and safety issues.

Statewide average arterial pavement structural condition (PSC).*					
Biennium	Period	Target	Actual	Variance	
2005-07	8th Qtr	80			
	4th Qtr	80	82	2	
2003-05	8th Qtr	86	80	(6)	
	4th Qtr	84	79	(5)	

Pavement structural condition is a rating of paved roadway surface, based on the type and extent of defects inventoried. A rating of 0 equals totally failed pavement, while 100 equals brand-new pavement.

### A003 Urban and Rural Arterial Road Preservation

Statewide Result Area: Improve statewide mobility of people, goods, and services

Statewide Strategy: Preserve and maintain state, regional and local transportation systems

#### **Expected Results**

CAPA provides a regular and dedicated resource for the purpose of county arterial preservation. By calculating the distribution on the basis of a certified road log, the result should be an accurate and current assessment of individual county arterial preservation need, as well as an equitable distribution among the counties. The requirement of pavement management systems within each county continues to ensure that every county is a part of a statewide stewardship effort to maintain the existing infrastructure investment.
